

Barrett Hospital & HealthCare Recognized Once Again as One of the 100 Highest Ranked Critical Access Hospitals in the Nation in 2022

Dillon, MT., February 18, 2022 – Barrett Hospital & HealthCare announces it has been recognized once again as one of the 100 highest ranked Critical Access Hospitals (CAHs) in the nation. Compiled by The Chartis Center for Rural Health, this annual recognition program honors outstanding performance among the nation's rural hospitals based on the results of the Chartis Rural Hospital Performance INDEX™. This is the 11th time Barrett Hospital & HealthCare has been named a Top 100 Critical Access Hospital out of more than 1,300 critical access hospitals in the nation.

"We are honored to be recognized as one of the top critical access hospitals in the country," said Scott Manis, Interim Chief Executive Officer. "Thanks to all employees, volunteers, medical staff, leadership, and board members who worked so hard to make this happen. We were able to be recognized as a premier critical access hospital because of your tireless commitment to our patients and community."

Over the course of the last 12 years, the INDEX has grown to become the industry's most comprehensive and objective assessment of rural hospital performance. Leveraging publicly available data, the INDEX is trusted by rural hospitals, health systems with rural footprints, hospital associations and state offices of rural health across the country to measure and monitor performance across a variety of areas impacting hospital operations and finance.
